POINSETTIA

WEEKS GLADIOLUS GARDENS

State License No. 531

SALEM, OREGON

3130 North River Road

Superior Quality Gladiolus Since 1923

◀ POINSETTIA

Our Grand New Introduction for 1952

In POINSETTIA we are introducing an outstanding new red, different from most all present reds. It is neither on the orange or purple shade, but a rich pure light spectrum red with medium ruffling and no markings.

It is classed as 450 with blooming time of 85-95 days from date of planting. The height of spike is 50-55 inches with up to 21 bud count, opening five to seven florets on a 25-inch flower head. The stem is medium, always straight and stands heat well without crooking. Opens well from a tight bud, making it an extra good commercial variety with excellent keeping qualities. It produces a tall dark green plant and makes a nice sound healthy bulb.

Propagation is good with bulblet germination fair to good from bulblet stock bulblets. Stock bulblets are difficult to germinate the first year, but if held over will come perfect the following year. Many good varieties have this trait.

POINSETTIA was tested in the 1950 North American Gladiolus Council test gardens. Out of 61 seedlings tested, five were approved and Poinsettia rated third of the five approved. Sample bulbs were also sent to Florida for the disease test and the rating was okeh.

It has not been shown in many of the larger shows of the country. In 1948 we air expressed some spikes to the Lima, N. Y. seedling show where it was given a blue ribbon and approved by the judges. It has also won best basket, along with single and three spike class at the Oregon State Fair floral show for two straight years.

Don't be misled by the reasonable price we are introducing this outstanding glad. We are not a believer in high prices on new introductions. We have a reasonable amount of stock and can guarantee our 1952 purchasers that we will maintain a gradual drop in prices from year to year as long as we can control the price. This assures you of a chance to realize a nice profit on your investment.

Twelve or more of the leading growers and cataloguers are listing POINSETTIA for us this year. All who have seen or have grown it, are enthusiastic about its rich color and natural beauty. Several have told us that it simply is the finest red they have seen.

SCOOP — Just before this list had gone to press, we received a wire from **POPULAR GARDENING** advising us that they had accepted a photograph in color of a beautiful bowl arrangement of POINSETTIA for their front cover page of the 1952 February issue of this fine flower magazine.

1952 INTRODUCTORY PRICES

Large, \$2.00 each Medium, \$1.50 each Small, \$1.00 each
1 Large, 1 Medium, 1 Small— 10 Bulblets—All for \$ 5.00

Please Read Before Ordering

TO OUR CUSTOMERS

This is our 28th annual spring list and is the only price list we issue. We grow gladiolus exclusively and our SUPERIOR QUALITY is known the nation over by both growers and home gardeners alike. Our hundreds of repeat orders from our customers year after year convinces us that our bulbs must be tops.

All our stock is grown from small bulbs and bulblets in the fertile WILLAMETTE VALLEY of Oregon. Grown under the most modern irrigation system and stored in our spacious warehouse especially constructed to properly handle glads.

POOL CAR SHIPMENTS

Eastern wholesale customers please check our PREPAID prices as given inside this list on pool car shipments. Don't miss this money saving service.

TERMS AND SHIPMENT

Net cash before shipment; or 25% with order until date of shipment with balance sent c.o.d. Full remittance will be appreciated and will hasten delivery of your order.

Shipment will be made at the proper time in spring for planting. If you want your order at any special time or by any special method, please state so on your order. Truck service is available and cheapest for Pacific Coast orders of 100 pounds or over. Minimum order \$3.00. No single item under 10 cents.

All stock in this list is priced f.o.b. Salem, Oregon, with transportation charges collect, except pool car shipments, which are prepaid to Chicago or Trenton. Please do not include money for these charges as it is impossible to estimate the amount. Retail orders are prepaid.

NO WARRANTY — We give no warranty, express or implied, and will in no way be responsible for the results of any planting or forcing of any stock sold. We exercise the greatest care in handling our bulbs and guarantee all stock true to name, but will not be responsible beyond the purchase price of any bulbs sold.

HUNTRESS

ABU HASSAN (K. & M.). Beautiful rich violet blue, with buds showing darker and slight fine penciling in throat. Five open on a tall, slender, but stiff spike. About the color, but very much better than the old variety *Pelegrina*.

ALICE AYER. A pure early white with five to seven nicely placed florets on a good flower head. Have only grown this one year but it looks quite promising for a good one in its color.

ASTRID (Jack). Clear, medium rose with narrow throat line. Opens five to seven florets which are slightly ruffled. Looks like a fine new addition to this color class and a grand cut flower.

ATHLONE (Palmer). Clear warm flesh color. Opens up to 10 well placed florets arranged in ideal formal style. Exceptionally good for dainty floral work. You will be well pleased with this one.

BEAUTY'S BLUSH (Fischer). Color is a delicate pink blush overlying a frosty white. Opens 8 plain petaled round florets on a tall spike. An excellent cut flower for home or shop.

BENJAMIN BRITTEN (K. & M.). Very deep lavender with small white lines. Very beautiful and should make a grand cut flower. A very heavy propagator and bulblets germinate well, growing into large bulbs the first year. You will like this new one.

BIRCH RED (Rich). A smooth pure medium dark red without markings. Opens up to seven nice round florets on a tall spike. An excellent variety.

BLUE BEAUTY (Pfitzer). A tall growing light blue with edges of petals overlaid violet blue. Probably the most popular of the blues. Has six to eight well placed wide open florets of fine form.

BOISE BELLE (Roberts). A very pleasing pink and yellow that will open up to 12 very heavily ruffled florets with most of the remaining buds showing color. Very vigorous and husky grower and quite popular with the home gardener and as a commercial.

BRIDAL ORCHID (Carlson). New strong growing pastel lavender of huge size. Opens up to 10 ruffled florets on long flower spike with as many as 24 buds. Will open to tip when cut in tight bud and an excellent cut flower. Good propagator and vigorous grower from bulblets and small bulbs. Should make a grand commercial.

BURMA (Palmer). Very deep, heavily ruffled rose, somewhat lighter in the upper throat and shading to a beautiful darker blotch on the lip. Opens seven or more on a medium height spike and flowers are of very heavy texture. Creates great interest either on the show table or in the garden. Especially popular with the ladies.

CANDY HEART (Salbach). Pure flesh pink with a large blotch of light carmine. Opens five to seven well placed flowers on medium height spike. Well liked in the garden and very popular as a cut flower.

CHAMOUNY (Baerman). A distinct shade of deep rose shading to lighter color on edge of petals. Opens up to 10 blooms on a tall spike. Always popular with the cut flower trade as it is really beautiful.

CHERBOURG (Eu). A very pleasing shade of rose almost the identical color of a Better Times rose. A grand florist flower.

CLARENCE D. FORTNAM (Kadel). Beautiful blush pink that opens 8 on a 24-inch flower head. Heavily ruffled and needlepoint and a grand show winner. Highly recommended.

COLUMBIA (Roberts-Majeski). Color is quite similar to the old popular variety, *Corona*, except that there is no yellow or other foreign color in the throat. Fully described in right-hand column under the color illustration.

DIEPPE (Hassall). Deep salmon red with darker blotch. Very distinctive and grand color and destined to become one of the finest varieties in its color as a cut flower or for exhibition. Opens five to seven on slender but stiff spike with florets somewhat waved and ruffled. You will love this one.

DR. FLEMING (Eu). A large medium pink that is very attractive. Opens five well placed florets on a medium height spike.

ELIZABETH THE QUEEN (White). Beautiful lavender with darker lines in throat. Large ruffled blooms with seven or eight open.

EVANGELINE (Palmer). A fine new very light rose pink with a creamy yellow throat. Grows to a huge size with plants up to six feet. Opens eight or nine fine ruffled blooms on a long, stretchy stem. The only fault we can find is its tendency to come misplaced.

ETHEL CAVE COLE (Cave). Early pure light pink shading to cream in the throat. Often comes flecked which doesn't distract from its beauty. Opens six to nine well placed florets on medium height spike with heavy flower head. Very popular as a cut flower.

FIREBRAND (Butt). A nice medium red that fairly glistens like velvet. Slightly darker in throat with white lines on lower petals. Very straight, medium tall spike with eight or more open and many more showing color. One of the better newer reds. We can recommend it highly.

FLORENCE NIGHTINGALE (Harris). One of the finest of the new whites. Up to eight blooms open on a tall, straight spike. Considered a grand commercial and show flower by all the growers and destined to be one of the best in its color.

FRIENDSHIP (Fischer). A beautiful soft pure ruffled pink of the shade all will fall in love with. Opens up to 8 nicely placed blooms on a medium spike. If you like a pure pink, you must have this one.

GENERAL EISENHOWER (Salman). A huge, brilliant begonia rose. Opens five to seven florets up to seven inches across, with most of the remaining buds showing color. Very tall grower, but doesn't seem to stand extreme heat very well.

GIANT CYCLAMEN (Higgins). Very attractive light rose. Opens several lavender-rose, well placed flowers. Color somewhat similar to *Miss Wisconsin* but perhaps better.

GREEN LIGHT (Pfitzer). In big demand on account of its chartreuse color. Buds have a greenish gloss, with open florets of a lighter color.

HUNTRESS (Jack). Extremely early light pinkish lavender. Sometimes blooms come flecked but has been popular since introduction on account of its earliness and cut flower value. Opens six to eight well placed blooms on a medium height spike. You will want to add this one to your collection.

JUNE DAY (Roberts). Extremely early blooming pure pink with a small cherry blotch. Opens up to seven florets on a medium tall spike. Makes large bulblets which are average in germination. The earliest bloomer in the field as a rule.

KAREN MARIE (Majeski). An exquisite white that is superbly blended with a cream to yellow throat. Height of spike 50 inches with a flower head of 23 inches. Opens 5-7 nicely ruffled florets on an 18-bud spike. An approval award received from NAGC test gardens in 1950.

KATHY LEE (Fairchild). A heavily ruffled lemon yellow that is very attractive. Flower head a little short but opens up to eight wide open blooms of good substance. Increase is average.

KING CLICK (Wilson). A very bright scarlet and one of the best in its color. Makes a very tall spike on large plant with six to eight open blooms. Florets not always well placed but fine as an exhibition or cut flower variety.

LADY ANNE (Buch). An excellent prospect in the early whites. Blends to a canary yellow throat which adds to its attractiveness. Opens seven florets on a well balanced spike with a good flower head.

LADY JANE (Lake). A clear deep cream with yellow lip petals making it a variety that can be used either as a cream or a yellow. Has a good habit of blooming over a period of three or four weeks from a given size bulb, which makes it especially valuable as a cut flower. Tall, sturdy, well placed spike. A real garden variety and wins many ribbons at the shows.

LANCASTER (Palmer). Clear dark purple with up to 10 lightly ruffled blooms open on a tall straight spike. Probably one of the best of the purple shades. A show winner and should make a good commercial.

LEADING LADY (Johnston). Cream white sport of *Picardy*. Becoming one of the best whites for a cut flower and winning many ribbons at all the shows. An extremely good keeper and a variety all should grow.

LIPSTICK (Ballentine). Beautiful ruffled shell pink with bright red rose plumes in throat. Nice large florets on a tall, straight spike and really very outstanding. Has been overlooked for several years and suddenly discovered to be one of the best pinks we have.

MANCHU (B. Palmer). Brilliant yellow overlaid with a flush of pink with a small reddish blotch. Somewhat ruffled on a tall wiry stem. Blooms well from small bulbs. If you like a true oriental color, this is it.

MISS WISCONSIN (Krueger). Beautiful new shade of lavender rose. Distinct and different and becoming very popular wherever seen. Opens six to eight well placed florets on medium height spike. Rather late bloomer. Your garden won't be complete without this one.

NOWETA ROSE (Fischer). A sensational rose that has already created a great stir of comment amongst glad lovers. Of huge size opening up to 12 splendidly placed florets and a grand winner in garden or show. Has won heaps of prizes.

OCTOBER SUNSHINE (Quackenbush). A new orange blending to a golden yellow throat. Six open on a tall well placed spike. Good strong grower on a husky plant. One of the most outstanding new ones we have grown for several years and no doubt will make a grand commercial and home garden variety. You will like it.

SAVE ON TRANSPORTATION

We will again have pool car shipments going east this year. First car will leave Salem about March first and second car about April first. We will gladly include your order in either of these cars to **Chicago, Illinois or Trenton, New Jersey**. Using this service, all prices in this list will be **PREPAID** to points of distribution, either Chicago or Trenton. Minimum order on this service \$20.00 or 100 pounds in weight. Take advantage of this **MONEY SAVING** service.

COLUMBIA New for 1952

(Roberts-Majeski)

Color is quite similar to the old popular variety, *Corona*, except that there is no yellow or other foreign color in the throat. The rose halo is more prominent and uniform. Stock seems healthy and produces a fine spike and without a doubt will be one of the leading cut flower and show varieties as soon as stock becomes plentiful. You can't go wrong on this great variety.

Large, \$3.00 each; Medium, \$2.50 each; Small, \$2.00 each
Bulblets: Each, 35c; 10—\$2.50; 100—\$20.00; 1000—\$150.00

GROWERS UNITS

1 Med., 5 Sm., 50 Bils. \$15.00
3 Med., 12 Sm., 125 Bils. 35.00
5 Med., 25 Sm., 500 Bils. 85.00

Alphabetical Listing (Continued)

ORANGE GOLD (Marshall). Clear rich beautiful medium dark orange gold. Becoming very popular as a home garden and commercial variety. Four to six open on a tall straight spike. Very good.

ORIENTAL PEARL (Carlson). The giant of the cream class. Opens four to five huge six-inch florets on a tall well placed spike. The finest

PACTOLUS

of the ivory cream class and one of the must haves. Super in the garden or on the show table.

PACTOLUS (K. & M.). A vivid apricot cream with orange red blotch on lower petals. Opens up to 10 wide open tightly attached florets on a nice spike. A strong healthy grower and good propagator. If you like a blotched variety, you will be more than pleased with this one.

PANDORA (B. Palmer). Clear soft geranium pink with somewhat darker line in throat. Truly one of the finest cut flower pinks on the market. A hundred per cent cutter and exceptionally good keeper. Opens well when cut in bud. Eight to 10 open on a medium height plant. We recommend this variety as one of the best.

PARTHIENA (Hitchcock). A giant deep lavender. Opens up to 8 somewhat ruffled well placed blooms on a long flower head. Different from all other varieties and truly gorgeous.

PATROL (Palmer). A light apricot with a yellow throat. Will open 10 or more florets on a tall spike. Very attractive and one of the best in its color class. Foliage doesn't look too healthy during growing season, but doesn't seem to affect blooms and bulbs are clean and healthy.

PICARDY (Palmer). The old reliable salmon pink that everyone knows. More widely grown than any other variety.

PROSPERITY (Silva). Ruffled sport of Picardy of a slight rose shade instead of salmon. Makes tall, fine spikes with five to seven open and destined to become a real popular variety when better known.

QUIBERON (Errey). A grand new variety from down under. A beautiful peach buff in the same color class as Patrol but will grow taller. Color shades a little darker toward the edge and to a light yellow throat.

RAVEL (K. & M.). Violet blue with reddish brown markings. Tall straight spike with eight to 10 open. Strong healthy grower and one of the best blues we have tried. Early bloomer.

RED CHARM (Butt). One of the most popular medium reds. A consistent grower and equally as good in garden or as a commercial. Opens eight well placed blooms on a tall spike. You will like this one.

RED CHERRY (Roberts). A smooth bright early red with a faint rosy undertone and a cherry red throat. Nice tall straight spike with six to seven florets open. This variety will make a grand addition to the cut flower reds. Good propagator and a very vigorous grower.

REDOWA (Butt). An excellent fine large red with darker markings. Opens 7 5-inch blooms on a long head. Tall strong grower and grand in all respects.

RED WING (Graaff). Color is a glossy light scarlet red. Opens up to 10 large blooms on a long flower head of 22 buds. One of the best new reds.

ROSA VAN LIMA (Pfizer). Light rose pink with a touch of lavender deep in throat. It is early and has been one of the best pinks on the market and still in good demand.

ROSY FUTURE (Pletcher). A deep rose with a light fuchsia cast. Opens 6 on a 20-bud spike of good height. Strong healthy grower and looks like a great addition to this color class. Nice substance and lasting qualities.

SALMAN'S GLORY (Salman). Huge creamy white with showy red blotch in throat. Opens up to seven well placed florets on a long, stretchy spike. One of the best in this color class. Very attractive.

SHERWOOD (Pruitt). One of the best of the newer purple glads. Opens 7 large lightly ruffled blooms on a tall plant.

SPARKS (Glass). A tall creamy yellow with an explosive red blotch. Opens seven large fluted florets with triangular shape informally arranged on the spike. Very showy and attractive.

SNOW PRINCESS (Pfizer). Creamy white. Has been one of the best standard cut flower whites for years and still very popular.

SPIC AND SPAN (Carlson). New deep ruffled pink. Somewhat like New Era, one of its parents. Has been a great winner the past two years and destined to be one of the finest of the new introductions. Don't miss this one.

SPOTLIGHT (Palmer). Clear medium deep yellow with small scarlet blotch in throat. Beyond a doubt the finest yellow we have to date and almost perfect as a cut flower for home garden or commercial.

STRAWBERRY PEACH (Salbach). Large wide open beautiful bright orange pink with soft scarlet blotch and feather. Opens six to eight blooms of heavy texture and well placed on a tall straight stem. A strong grower and opens to tip when cut in bud.

SUN SPOT (Roberts). Light apricot buff with rose spot in throat. One of the newer sensations that has swept the country with its many show winnings. No doubt one of the best glads to date and one that will be grown for years, both commercially and in the garden. Don't miss it.

THEMESONG (Klein). Mallow purple with a cyclamen blotch. A very unusual color with a tall straight spike with 7 open ruffled blooms. A good garden variety as well as a commercial.

TIVOLI (K. & M.). Lovely clear light rose. The color of old Coryphee but straight and more beautiful. Tall and straight, with up to 10 open on a well placed spike. A very acceptable addition to this color class. Will be in great demand when stock is more plentiful.

TOPFLITE (La Salle). Beautiful, clear light rosy pink blending to a cream throat with a small rose blotch. Opens up to eight wide open blooms on a slender, wiry spike. Has made a grand show record and should be a grand commercial.

TRUELOVE (Klein). Clear, somewhat ruffled early shell pink of a fine shade and form. Opens six to eight wide open blooms on fairly tall slender stems. Extremely popular with the florists and truly one of the best of the newer commercials.

VALERIA (Pruitt). Light scarlet of an unusual shade. Valuable as an early cut flower and is grown by the million in Florida and considered their best red for cutting. A healthy grower but only fair propagator.

WHITE GODDESS (Roberts). Strong growing heavily ruffled white. Will grow up to 60 inches in height with seven or eight well placed florets open. A very fast propagator and germination is excellent. One of the very best of the newer whites.
